

# Empowering the Future: The Angus Foundation's Impact in 2024

Cheyne Twist, Senior Marketing & Communications Officer

Throughout the course of 2024, the Angus Foundation has continued to play a pivotal role in advancing the Australian beef industry by supporting education, research, and leadership development.

In 2024, the Foundation provided numerous opportunities for young beef industry leaders through scholarships, programs, cadetships and more.

Beneficiaries in 2024 included participants in the GenAngus Future Leaders Program, Total Beef Cattle Assessment Course, and the Thomas Foods International Production Tour, along with many other opportunities. These programs provided professional development and hands-on experience for those who took part in these opportunities.

The work conducted by Angus Australia on behalf of the Angus Foundation would not be possible without the support of voluntary monetary donations made by members of Angus Australia. The support provided by members affirms the society's ability to continue contributing to the development of the next generation of members of the agricultural industry.

The Angus Foundation and its programs aim to inspire and support young individuals in the Australian beef industry by offering professional development opportunities for young beef breeders. They also facilitate research, development, and educational initiatives to benefit Angus breeders and the broader Australian beef industry.

Congratulations to all the beneficiaries of the Angus Foundation in 2024.
